Richard Wainwright

Richard Wainwright was raised in Needham, Massachusetts. After high school graduation, he served in the U.S. Army where he spent his free time working with priests and orphans at St. Dominico while stationed in Italy. Upon returning home, Richard earned his B.A. at Boston University and has spent his career in the education field including as a teacher, coach, and administrator. He was also headmaster of Charles River Academy, a school he founded for children with academic problems. Richard authored his first book, *A Tiny Miracle*, in 1981 and has since published ten additional, all which focus on "family values and compassion as a way to cope with and overcome a variety of life's challenges."

"Closer Than We Imagine is a beautiful memoir of spiritual growth and the hereafter. Wainwright teaches without being preachy. The poetry and formats keep the readers reading...the photos help us believe this wonderful story. A good book for adults who have lost someone. Wonderful for healing...a daring spiritual quest."
